

**CARAMELS AND ALMONDS**

17-06-2023

Mr. Pruthuvi Wijesinghe

Project Manager.

Dear Sir,

**Accepting the proposal for an e-commerce website for Caramels and Almonds**

Our management has accepted the proposal to create an e-commerce website by your team members. One of the main components that our business needs is a well-developed website. The proposed website fits our requirements perfectly, and we look forward to working with your team members to make this a success.

The following are the requirements we agreed upon:

- A website with simple, user-friendly interfaces
- A shop page that consists of a list of available cakes, cupcakes, and brownies and their relevant details
- Admin panel with add, update, and delete functions
- Ability to add items to a shopping cart
- Make payments using a payment gateway
- A search option
- An AI-based chatbot, which is the technical component of this website

We look forward to working with your team. Please never hesitate to reach out to us via [caramolsandalmonds@gmail.com](mailto:caramolsandalmonds@gmail.com) if you have any issues.

Thank you for joining us.

Your sincerely,

Senuthi Wijesinghe.
